MONDAY JUNE 6.

The Atchison, Topeka & Santa Fe railway company announces its intention to establish a weekly line of steamers from Galveston to Liverpool and a tri-weekly line from Galveston to New York.

General James S. Speed, who was Attorney General under President Lincoln, is dangerously ill at his home near Lodi-ville. The family and physicians state that he can live but a few days longer. He is almost 80 years of age, and is gradually sinking from mere exhaustion.

Ex-Governor Moses, of South Carolina, has been paroled out of the Massachusetts state prison by Governor Ames. Moses was convicted of forgery, but his health was so poor that it was thought he could not live long. From the governor's chair to a state prison has been a singular career indeed.

The new line of the Chicago, Milwaukee and St. Paul railway to Sioux City and Yankton was opened yesterday, June 5. Trains leave Chicago at 12:05 p. m. and 10:10 p. m., arriving at Sioux City at 9:50 a. m. and 7:30 p. m. next day. Train leaving Chicago at 12:05 p. m. will have sleeper to Sioux City, 10:20 p. m. train will have sleeper to Maconilla.

William Murray, a saloon keeper, was arrested Saturday night in Chicago, charged with being one of a gang of masked burglars who six years ago broke into the house of Alexander Fairbanks, of Winona, and by holding lighted matches to the feet of the inmates, compelled the disclosure of where \$10,000 in government bonds were concealed.

Murray was safe until a day or two ago when he attempted to sell one of the bonds.

It is observed by the Detroit Tribune that the "Bob" Lincoln boom is rapidly spreading among the republicans of the south. The colored people are especially enthusiastic, and say if the republicans will nominate the son of their emancipator for president they will smash the solid south to pieces in spite of all creation. There is no doubt that the nomination of Lincoln would make the Bourbons in several southern states feel dizzy as long as the campaign lasted.

Miss Mary Childers, a pretty school-marm of Trenton, Georgia, rode across Lookout mountain, a distance of fifteen miles, and at the muzzle of a shot gun forced John Major to apologize for circulating slanderous remarks about her. She then published him as an infamous scoundrel and accepted his challenge to fight a duel. At the appointed time she was on the ground ready to fight, but Major failed, and she proposes to horsewhip him for his cowardice. The school-marm of the south has evolved a good deal in the last quarter of a century.

**DEATH OF W.M. A. WHEELER.**  
Hon. Wm. A. Wheeler, ex-vice-president of the United States, died at his home in Malone, New York, at 10:30 o'clock on Saturday morning. More than a year ago it became apparent that his years were numbered. Mr. Wheeler was born in 1819, and always lived at Malone. The people of the county were proud of their representative, and displayed their confidence by making him their district attorney shortly after he attained his majority, by sending him to both branches of the legislature, to congress for ten years, and to the constitutional convention in 1837. He was president pro tem. of the state senate, and his abilities as a preeminent officer were so generally recognized that he was chosen president of the last state constitutional convention by 100 votes out of the 100 on the first ballot. Mr. Wheeler was recognized in all deliberative bodies as a master spirit. His abilities were of a pronounced order, and his mind was analytical. For years his hand unopposed had shaped the policy and directed the management of the republican party in his part of the state. His handsome home on Maple street was the Mecca to which republicans from all over the country found their way during the summer and fall of 1870, when Mr. Wheeler was the nominee for vice-president. He was elected on the ticket, with Rutherford B. Hayes, honorably served his term, and since that time has lived in strict retirement.

## THE GROWTH OF THE NATION.

The recent discussion of the question of immigration has brought to mind the fact that there are eight states in the Union having a smaller population than that which joined this country in a single year from foreign lands. In 1882 there were over 700,000 immigrants landed in the United States, the largest immigration ever known in one year, but as foreigners are pouring in upon us at the rate of from 35,000 to 50,000 a month, the chances are that for 1887, the immigration will not fall short of 600,000, and it would not be a surprise if it reached 700,000. Just think of this fact, that the addition to our population by immigration this year, will exceed the entire population of Nebraska in 1880, and will almost double that of Vermont, and will make two states like Florida and Delaware.

This state of things is a rebuke to the free trade grumbler who are bemoaning the condition of the workingmen and theoretically tell how the rate of wages can be increased. Immigrants come here by the tens of thousands every year because they can find better homes and more work and higher wages than can be found in any other country under the sun. It is said that nearly one-third of the immigrants come here on the money sent them by their friends or relatives who have found new homes in this country which has not felt the blighting influence.

## LEAPED FOR THEIR LIVES.

**NARROW ESCAPE OF INMATES OF A BURNING BUILDING.**

ence of free trade for twenty-seven years. And another think which illustrates the wonderful growth of the nation is that the vast additions to the laboring population of the country without producing any undue depression of wages in the standard trades. This could not be done in any other country without revolution and a depression in wages—striving that would amount to starvation wages.

But there are still other facts which are as marvelous as immigration in testifying to the rapid growth of the United States. In the savings banks of the country three million depositors have \$1,16,000,000, according to the official report for 1886. In the national banks for the year ending December, there was deposited \$1,180,300,000. The gold and silver produced by the country for 1886 was over eighty million dollars. There was also invested in railways last year, over eight billions of dollars, and the number of miles of railway reached 127,000. The country produced 302,000,000 pounds of wool, 1,350,000,000 bushels of corn and 35,712,000 bushels of wheat. The cotton product went up to \$4,575,591 bales, iron to \$3,666,000 tons, and coal to 102,224,833 tons.

These facts will give one some idea of the amazing growth of this country, and they likewise furnish a prolific and an interest text for fourth-of-July orators. If there is any country on the face of the globe where socialism should never find sympathy or any sort of lodgement, it is in the United States.

## SHERMAN'S CRIME.

There has not been a speech made in this country for a long time that has excited so many bitter criticisms from the democratic press, as the speech of John Sherman at Springfield. It is charged that the senator committed a crime against the south by asserting that there was such a thing as ballot-box stuffing in that section of the country, that negroes were intimidated at the polls, and that official canvasses showed that there was unfair play and dishonest counts at the elections in the ex-confederate states. He also said touching this subject that the elections throughout the large part of the country have not been carried honestly, but for years by constant fraud and in deliberate violation of the laws of the United States; that a majority in the popular branch of congress and in the electoral college has been secured by these methods, and that a president elected by violation of law now sits in the chair of Washington.

Of course, this is a grave charge, and it may be that Senator Sherman might have drawn less criticism from the enemy had he not touched the democratic party on so tender a spot, and it is possible that he might have got in his work a little more effectively, had he not mentioned the election frauds in the south. But he went to Springfield to make a representation, as he had a right to do, and he made a good one as he always does and if the democrats don't like it, let them find some one to answer it; or instead of charging that Senator Sherman committed a crime against the south, let the press show that there have been no election frauds in the south, and that the democratic party carries the ex-confederate states by an honest vote and a fair count. If the democratic papers would go quietly to work to show that John Sherman doesn't know anything about elections in the south, and that what he said at Springfield was all a campaign fabrication, they could bust his presidential boom in a week, and help the cause a honest elections.

But the democratic papers won't do this. They will call the old woman senator a partisan fanatic and a weak aspirator to the presidency and charge him with waving the bloody shirt but will exercise extreme care not to attempt to make answer to his statements. In this they show their weakness and the conclusion is irresistible that they have no answer to make. Senator Sherman may have done his presidential boom a better service by making a rose-water speech, saying nothing in particular, and especially lauding the so-called fraternal feeling in the south which we read of in democratic papers. But the senator is no hunchback. He never speaks to please. All grave questions he discusses with sober sense and conspicuously ability and never with a pernickety spirit. But if the democrats are bound to take issue with John Sherman, let them make some valuable contributions to our political history by proving that his indictment of the democratic party of the south is a crime. If they have a good defense, it won't be difficult to make a complete wreck of his Springfield speech.

All medical authorities agree that there is no more nor less than an inflammation of the lining membrane of the nostril or air passages. Nasal catarrh and catarrhal affection of the head are not diseases of the blood, and it is a serious mistake to treat them as such. No concoction plasters over attempt to do so. It is held by eminent medical men that sooner or later a specific will be found for every disease from which humanity suffers. The facts justify us in assuming that for catarrh at least a positive cure already exists in Ely's Cream Balsam.

MR. O'BRIEN WAS ABSENT.

The Irish Editor refused to attend a Labor Demonstration in His Honor, Saturday, June 6.—The labor parade and mass meeting in Union Square Saturday evening in honor of Editor O'Brien was in point of numbers and enthusiasm, one of the most significant demonstrations that has been witnessed in this city for many years. It is estimated that fully fifteen thousand people, representing almost all trades and nationalities, participated in the parade. Shortly before the procession began to move Mr. O'Brien sent word that he had changed his mind and would not participate in the demonstration, assigning as his reason that his wife, who is a friend of the Friends of Many Americans sympathizers with the Irish cause, that the person elected to preside and present the address of welcome was one whose connection with the affair (meaning Mr. McNamee), who presided, was recently delivered by Mr. Tynan, known also as "No. 1" in connection with the Fenian brotherhood, would be used to give color to the malignant misrepresentations of the London Times and would tend to discredit the most courageous resolution of the meeting. It was recently learned that the Fenians had a large number of men, whose escape had been aided by the skillful efforts of women at the window and cried frantically for help. The fire department was signaled as quickly as possible, but before any apparatus could arrive the flames had spread throughout the house, and three women, Ruby Ferguson and an unknown man jumped from a second-story window at the side of the house. The man was not hurt, but Ruby was badly shaken up and was taken to No. 114 Fourth avenue, where she was properly cared for. Louis Thompson and another unknown man forced their way through the front door in front of the house. The girl's fall was broken by a policeman, who caught her in his arms, and the man was not hurt. Louis Sherman, the owner, managed to gain the door of the storm-door, whence she was rescued by citizens. The only other injuries suffered were Carrie Costa and Lizzie Lawrence, who were burned slightly about the face and hands. It is suspected that the fire was of incendiary origin, and the building saturated with turpentine. A barrel of turpentine was found in the parlor, and a quantity of turpentine were found on the stair leading from the first to the second floor.

## DAVITT ADVISED RESISTANCE.

Valuable Burns Burned.

CARLISLE, Ill., June 6.—Samuel Davitt addressed another large crowd in the Bodine's District Store, repeating his exhortations to the people to resist eviction. He advised them to resume possession of their dwellings after being evicted, and said in effect when the house had been burned by the agents it was the duty of the men of Bodine to rebuild them and furnish shelter for the families. He said that with his next audience he would submit their report, and it was voted to ask Mr. McNamee to withdraw and to reconsider the resolutions. Mr. McNamee, however, firmly resolved to hold the chair.

## STORE BURNED AT PUEBLO.

PEUPO, Colo., June 6.—H. J. Drury & Co.'s wholesale drug house, and Ed Nathan's clothing store were destroyed by this Sunday morning.

The loss of the former is \$10,000; insurance, \$2,500.

LARGE OIL MILLS BURNED.

NEW YORK, June 6.—Jewett's oil mills at West Port Richmond, Staten Island, burned Sunday afternoon.

## THE LATE WILLIAM A. WHEELER.

LYON, June 6.—Samuel Davitt addressed a sermon to the No. 100 Club on Sunday morning in defense of the Established Church in Wales. Refusing from church he was met by an immense crowd escorting a delegation from Cork, bearing an address of thanks and eulogy. Mr. Gladstone excused himself on account of the day being his birthday. First, Mr. O'Brien refused to speak, but after a short interval he consented. Then Mr. O'Brien refused to speak unless some changes were made in the resolutions and chairmanhip. The committee submitted their report, and it was voted to ask Mr. McNamee to withdraw and to reconsider the resolutions. Mr. McNamee, however, firmly resolved to hold the chair.

## AN IMPPOSTER ARRESTED.

INDIANAPOLIS, Ind., June 6.—Deputy Ward of the United States Marshal's office, received here Saturday night a telegram from John H. McCloskey, marshal for pension funds, and he had been committed to jail in default of \$1,000 bail. He found McCloskey at Hotel Illinois, where he had settled some three months ago, and was engaged in the practice of medicine. It had already succeeded in taking the front rank in working in the temperance cause, and Ward arrested him as he was returning from a meeting. McCloskey's family live in Hazelton, Washington State, and they were to be the defendant in a trial at Hoquiam. McCloskey refused to talk about his case, but was willing to say that the reason he had delayed so long was because he did not have money to defend him self.

## A DRUMMER REBUDED.

ST. LOUIS, Mo., June 6.—August Fuchs, representing a Chicago cigar manufacturer, was the victim Sunday of a singular robbery.

He arrived at the South Hotel Saturday morning and was registered.

When he awoke Sunday morning he found that the door leading to the adjoining room 300 had been broken open and his diamonds, a gold watch and chain valued at \$200, and about \$10 in cash stolen. The man who occupied room 300 Saturday night can not be found. He had registered at C. L. Ward, Covington, Ky.

Still After Inspector Bonfield.

Chicago, June 6.—At a meeting of the Trade's Assembly held yesterday the case of Inspector Bonfield came up, and it was proposed to send another letter to the Mayor, setting forth that Bonfield was a bruto, that he was interested in houses of bad repute, etc., but on the assurance of Thomas Morgan, the Socialist, that it would do no good they decided to postpone the matter. Mr. Morgan said that Mayor Rocke was right when he said that there were many workingmen on the part of Bonfield; "for we," said the Socialist, "what did they vote for the present administration for? There are 40,000 wage-workers in Chicago, and our candidate only got half that number of votes."

The Crown Prince's Throat.

BOSTON.—June 6.—Dr. Mackenzie, the English surgeon who assisted in making an operation on the King of Spain, Frederick William, last winter, has written to Dr. George de la Rue, Boston, stating that it was fully established by the microscopic examination made by Dr. Virchow that the Crown Prince's disease is not cancer but a non-malignant growth. The latter, he says, can be cured by careful treatment, and there is no reason to think the Crown Prince's case will prove an exception.

Terrible Experience at Sea.

HALIFAX, N. S.—John G. John Brown and Edward Hogan, belonging to the Gloucester fishing schooner "Lester," were picked up at sea adrift in a dory, and who were landed at North Sydney after undergoing a dreadful experience. They were adrift in the ocean for over six days without water. After trying all imaginable expedients to stay their thirst, Brown cut one of his arms in order that they might drink his blood, and the blood would not flow.

Then they gave up all hope of being rescued, but were at last picked up in a terribly exhausted condition by the bark "Kate C."

Breaking a Millionaire's Will.

NEW YORK, June 6.—The jury in the trial of the suit brought by Mrs. Henry Ward Watson to set aside her grandfather, John Anderson, the millionaire tobacco-man, and of itself could not be made the basis of judgment. It will receive attention, however, and if it is shown that the effect of the letter and the acts of the people carrying out its instructions constitutes a case of conspiracy there will be some compromise on those points.

Rights of Labor in Peru.

NEW YORK, June 6.—The publication in the Sun of the facsimile of a letter emanating from the office of the General Secretary of the Knights of Labor, intending to injure Negroes, has caused considerable excitement, and a large crowd gathered on all the customers of flat-boats who brought the notice of District Attorney Murphy who turned it over to his assistant, Mr. Davis. Mr. Davis thinks that it was very fraudulently forged, and of itself could not be made the basis of judgment. It will receive attention, however, and if it is shown that the effect of the letter and the acts of the people carrying out its instructions constitutes a case of conspiracy there will be some compromise on those points.

Must Die.

The Three Mexican Officers for Whom Mr. Hayes Intended to be Shot.

Mr. Hayes, June 6.—Gen. Ignacio Vega, president of the military court that sentenced the three Mexican officers to death, is in El Paso, and says the three are still in jail at Guaymas, pending an appeal for mercy by the president and secretary of state. It is not thought the intervention of Secy. Bayard for leniency will have the desired effect, as the standing of Col. Arizmendi, the Mexican army is not of the best, and as there is no sympathy for him among his followers. To recollect such as I have stated Canada would not object, would gladly agree upon, and fuller intercourse might become agreeable when the two countries had become more equalized, but at present commercial union is not a possibility.

The Chicago Turners' Great Day.

ORTHAWAU, Ill., June 6.—The annual convention of the Chicago district of turners was held here Sunday for the purpose of electing new officers and choosing places of meeting. Some considerable discussion was aroused by the Committee on Credentials making a report sustaining the action of the special committee of April, which deposited Speaker Oberholtz and several other candidates in nomination with the convention. A motion was carried to sustain the nomination of Oberholtz.

The meeting adjourned Saturday evening.

Steamer will make return trips at 10 o'clock a.m., and return trips in the afternoon, beginning at 2 o'clock.

## BRIEFLETS.

—Meetings to-night.  
—Walt Ains, of Rockford, was in the city yesterday.  
—Badges for the Sons of Veterans have been received.

—Arrangements for the fair festival are being pushed steadily.

—L. C. Carlo has returned from a business trip to Minnesota.

—R. Williams has returned from a business trip through the state.

—Mrs. G. N. Vaillant went to Chicago this morning on a short visit.

—An adjourned meeting of the common council will be held this evening.

—A Quickerino Square piano in first class order for sale by Wm. Cannon.

—Most of the cases on the jury calendar of the circuit court have been disposed of.

—Mr. and Mrs. Frank E. Clark returned from their brief wedding tour last evening.

—Yesterday was Trinity Sunday and was appropriately observed in the Episcopal church.

—W. H. Ashcraft will start for Green Lake to-morrow to prepare for the season's camping.

—From reports in the Toledo papers, Prof. Torrens' May festival appears to have been a success.

—W. H. Palmer arrived home last evening from attending the National military camp at Washington.

—Enough seats were sold for the Mastodons to make sure that to-night's house will be a large one.

—Wm. J. Flemming arrived home last evening from Washington, where he attended the National military camp.

—This morning a team belonging to S. S. Lovejoy ran away, and made kindling wood out of a lumber wagon.

—Much new business has been added to the Mastodon entertainment and those present to-night will enjoy a treat.

—Somebody should cut down the burdocks along South Main street. Enough of them are ripening to furnish seed for the whole city.

—The boys' meeting at the Wayside Inn this evening should be well attended as there has been an interesting program prepared.

—Crystal Temple of Honor No. 32 assemblies regular weekly session this evening—lodge room in the Judd block, North Main street.

—John W. Manning will return to St. Paul this week, but does not expect to go on the road before July 1st. His injured arm is still quite painful.

—Now-a-days when a young man's best girl smells essence of hops on his mountaineer Sunday night he explains this by saying he "attended communion this morning."

—Meunier Myers has engaged the Chicago Conservatory company for three nights during the races. Several popular comedies will be presented, there being a double bill for each night.

—Mr. Patrick McCune and Mrs. Daniel Riley were married by the Rev. E. M. McGillicuddy at St. Patrick's church this morning. The ceremony was a notable one from the fact that each of the parties has been married three times.

—In the last number of the Leader (Dek) Northwest, is a description of the McPherson county bank. Mr. Charles Turner, well known to Janesville people, is cashier of this bank, and his friend, will be glad to hear that he is prospering.

—A collision occurred on the North-west road on Saturday morning near Freeport—a special freight was run into by a wild locomotive. Several freight cars were derailed, and several trotting horses enroute to Freeport were injured.

—Kindness isn't always appreciated. Some young ladies who went to a picnic near town the other day, fed a farmer's prize calf on biscuits they had baked themselves, and now the uncharitable granger talks of arresting some one for cruelty to animals.

—Judge Bennett is bearing testimony in the case of Mead against North, from Beloit. It is an action for replevin. The Hon. John Winans, John Menzies and O. H. Orton appeared for the plaintiff, and Mr. W. M. Malone and J. G. Wickham are for the defendant.

—Mrs. Lari P. Bliss went to Chicago this morning after spending a few days with old friends in the city. Mr. Bliss has represented a Chicago saddlehouse company on the road for a number of years and the family will reside in the Garden City in the future.

—"1776-1887". This sign stands in Hall & Co.'s show window and is illustrated by two time pieces. One is "Grandfather's clock" beyond a doubt while the other is a split-second piece of mechanism that winds itself and might very properly be used to regulate the sun.

—People who take pleasure in Boston on the river above the dam, are complaining that the ordinances relating to bathing in the river within the city limits is not enforced. Scores of young men?

seem to take delight in exhibiting their nude forms along the banks in the disgust of all decent people who chance to be passing.

—The Gazette book-keeper has put most of his spare time to-day hunting "The Flowers that Bloom in the Spring." He had good reason to. The bouquet of roses that was sent to the office with the compliments of Miss Bertha Schubell would put music into the breast of a cigar store Indian.

—Mr. J. A. Cunningham, of the first ward, returned from Milwaukee the latter part of last week after spending several days in the care of an oculist who performed a delicate operation on his eyes, fully restoring the sight. Mr. Cunningham lost one of his eyes some six months ago while undergoing a similar operation.

—Yesterday was a memorable one for old Johnston, it being the annual meeting of the Rock County Sunday School Association, held in the Congregational church. The decorations were in delightful harmony with the bright faces of children. Addresses were made by Messrs. Sutherland, Wright, Dean, Rev. Jackson, Heid, Snyder and others. The ladies provided a bountiful meal at noon for the visitors. At five p.m. the visiting committee went to the poor house where exercises were held under the leadership of Father Cheney.

J. H. Kinney spoke words of cheer and comfort, also sang with her daughter, Miss Hattie. The inmates were grateful and returned thanks that they were remembered. Many of them spoke in high praise of Sept. Alter. One woman said she was a second Abraham Lincoln." The visiting party from Jauvers returned about 9 p.m. with one assurance that the time had been tally fad agreed upon.

—LITERARY NOTES.

—Brief Notice of the Month's Magazine.

Charles Egbert Craddock (Miss Marlowe) begins a new serial, "The Story of Keedon Bluff," in June Wide Awake. The eight pages of this magazine are filled every month with work of the greatest practical value to young folks: none the less useful because so variously pleasant and of so high artistic and literary character.

The Lincoln History in this month's Century, makes marked progress toward the presidential contest of 1860 by the consideration of events which form a bad precedent and will be imitated by others; some object because the water power will be injured and the interests of the city thereby damaged; still others because the bridge is unprofitable and dangerous to navigation.

—A Quickerino Square piano in first class order for sale by Wm. Cannon.

—Most of the cases on the jury calendar of the circuit court have been disposed of.

—Mr. and Mrs. Frank E. Clark returned from their brief wedding tour last evening.

—Yesterday was Trinity Sunday and was appropriately observed in the Episcopal church.

—W. H. Ashcraft will start for Green Lake to-morrow to prepare for the season's camping.

—From reports in the Toledo papers, Prof. Torrens' May festival appears to have been a success.

—Mr. Howell's serial novel, "April Hope," in Harper's Magazine becomes exceedingly bright in the June instalment with the episode of an engagement between Dan and Alice, which gives rise to a chapter of capital dialogue and several lively scenes such as only Boston society could furnish.

The Forum for June contains an exceptionally interesting contribution to its series on "Books that Have Helped Me," by Andrew Lang—the one English writer, perhaps, who can invest a cause with such charm of style and vividness as will please every reader.

The charming frontispiece to the June St. Nicholas, "A Day Dream" by F. G. Green, reminds us that summer is at hand. True to its name the magazine has hosts of good things for the boys and girls.

It will probably be news to readers in Wisconsin to be told that three-fourths of all the cranberries eaten with the Thanksgiving turkey are produced in this state. The methods of growing the berries on a large scale, and the picturesque scenes of picking and harvesting, form the subject of an article in the current number of the American Magazine,

FOREST PARK AUDITION.

The finished plot of Forest Park is now on exhibition at the American express office, and Mr. Brucham can give information as to prices of lots and the plans of the company regarding future improvements. Buyers of lots may be certain that all streets are to be graded by the company, free of expense to lot owners. No lots will be sold to objectionable parties.

—Forest Park Company intend to make their property the choicer residence section of the city, and at the same time sell lots at prices within the reach of all.

Negotiations are now in progress with the Street Car Company, which will extend the track entirely through Forest Park. Street grading is going on as fast as possible with a large force of men and teams, and this work will be continued until every street on the property is graded. Hundreds of trees have already been planted, and hundreds more will be planted in the fall, and all that money can be well spent to enhance the value and beauty of this park.

JUNIORS' KICKS CLUB.

Don't forget to attend the monthly meeting of the Juniors' Mon's Club on Monday evening, June 6th. It is expected that one or two stars of billboard fame will be paid off.

—The speaker will be Prof. T. C. Nowlan, Pres.

NEW TRAINS on the Northwestern.

Special attention is called to the new train which is now in operation on the Chicago & Northwestern Railway. New trains are being added, and changes made, so that immediate connections are made at Belvidere and Elkhorn with westbound trains to Rockford, Freeport, Cedar Rapids, Des Moines, Sioux City, Council Bluffs, Omaha, Kansas City, Denver, San Francisco, and all points in the south and west. Close connections are also made at all other junction points, enabling passengers to reach their destinations without delay. Time tables and full information can be obtained at all Q. & W. Railway ticket offices.

—Americans are breaking down under high pressure application to business and duties at the desk; they are losing nerve force. Dr. Jones' Red Clover tonic restores lost nerve by supplying food for the nerve tissues, and by its gentle operative action removes all irritation from the secretions of the stomach, liver, heart, lungs, kidneys, etc.

—The columns of a country newspaper are entirely too contracted to allow of this great and antiquated form which has characterized them since civilization first made its abode in the valley of the Rock River. The imperishable nature of the Egyptian pyramids is easily explicable for they were constructed of granite hewn into blocks of perfect form which were fitted together with the utmost nicety—all of which required a infinite labor; but the original of these domestic specimens is so remote as to be entirely unsuspected. They were moulded from native trees and evidently fashioned without prolonged premeditation and without the resources of social development. Their preservation is surely a marvel entitled to admiration and examination. While they are always ready to collapse they stand with a firmness and persistency worthy of a better cause, and they represent that order of things described by Horace Smith as an "imperishable type of evanescence."
